# To provide a safe, sustainable groundwater resource through education, innovation and responsible development.

The purpose of the **Montana Water Well Drillers Association** is to organize, maintain and operate a trade association for the benefit of its members. To collect and share with its members any scientific, educational or general trade information regarding the subject of well drilling and the sanitary aspects thereof. To monitor and appropriately support or oppose any legislation seeking to regulate the drilling of wells and the sanitation aspects involved. To advance and further the general welfare and interests of its members.
